Hands-free system

Hands-free system allows you to make or receive a call without taking your hands off the steering wheel by connecting your cellular phone.

This system supports Bluetooth. Bluetooth is a wireless data system by which you can call without your cellular phone being connected with a cable or placed on a cradle.

If your cellular phone does not support Bluetooth, this system can not function.

While driving, do not use a cellular phone or connect the Bluetooth phone.

NOTICE

Do not leave your cellular phone in the car. The temperature indoor may be high and damage the phone.

INFORMATION

In the following conditions, the system may not function.

- The cellular phone is turned off.
- The current position is outside the communication area.
- The cellular phone is not connected.
- The cellular phone has a low battery.

By pushing the telephone switch above, you can receive a call or hang up without taking your hands off the steering wheel.

You can use the microphone above when talking on the phone.

The other party's voice outputs from the driver's speaker. When the received calls or received voice outputs, the audio from the audio system or voice guidance from the navigation system will be muted.

INFORMATION

- Talk alternately with the other party on the phone. If you talk at the same time, the voice may not reach each other. (It is not a malfunction.)
- Keep the volume of receiving voice down. Otherwise, echo is coming up. When you talk on the phone, speak clearly towards the microphone.
- In the following situations, your voice may not reach the other party.
 - Driving on unpaved road. (Making a traffic noise.)
 - Driving at the high speed.
 - The window is open.
 - Turning the air-conditioning vents towards the microphone.
 - The sound of the air-conditioning fan is loud.

INFORMATION

This system supports the following service.

- HFP (Hands Free Profile) Ver. 1.0
- OPP (Object Push Profile) Ver. 1.1

If your cellular phone does not support HFP, you cannot enter the Bluetooth phone, and take OPP service individually. An antenna for the Bluetooth connection is built in the display. The indication of the Bluetooth connection may turn yellow and the system may not function when you use the Bluetooth phone in the following conditions and places.

- Your cellular phone is hiding behind the display (behind the seat or in the glove box and console box).
- Your cellular phone touches or is covered with metal materials.

Leave the Bluetooth phone on the place where "Blue" indication is displayed.

Bluetooth is a trademark owned by Bluetooth SIG, Inc.

When you release your car:

A lot of personal data is registered when you use the Hands-free system. When you release your car, initialize your data. (See "(c) Delete personal data" on page 157.)

If you initialize it, the former state will never come back again. Pay much attention when initializing the data.

You can initialize the following data in the system.

- Phone book data
- Dialed numbers and received calls
- Speed dial
- Bluetooth phone data
- Security code

FCC ID: HYQBT0501A IC ID: 1551A-BT0501A MADE IN JAPAN

This device complies with Part 15 of the FCC Rules and RSS-210 Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

— Enter a Bluetooth phone

To use the hands-free system, you need to enter your phone into the system. Once you have registered it, you can make a hands-free call.

When you set the security, you can prevent people from using some functions of the Hands-free system. It is useful when you leave your car with the hotel or you don't want others to see the data you registered.

When you set or unlock the security, you have to input the security code. Be sure to change the default code when you use the security for the first time.

• Changing the security code

The security code is 4 digits and the default is "0000".

Change a new code that is hard for other people to know.

When you change the security code, don't forget the code. The dealers cannot unlock the security when you forget it.

If you forget the security code, initialize your personal data. When you initialize it, not only the phone book data but also the memory points in the navigation system, etc. will be deleted. (See "● Initializing the security code" on page 143.)

Speech command system

The speech command system enables you to operate the navigation system, audio system and air conditioning system by giving a command.

1. Push the speech command switch.

A beep sounds and on screen message is displayed with an indicator at the top left.

2. Give a command while an indicator is shown in the display.

If you want to check the command list, touch "Help" to display the help screen. (See "Help screen" on page 153.) When you touch "Cancel", the previous screen returns.

If the navigation system does not respond or the confirmation screen does not disappear, please push the speech command switch and try again.

If no command is given, a beep sounds and the indicator disappears 6 seconds later.

If the system does not recognize your speech, the system will respond with this message ("System does not recognize this command, please rephrase your command."). Start the operation from the beginning.

Microphone

It is unnecessary to speak directly into the microphone when giving a command. Speech command example: Searching for a route to your home.

Push the speech command switch.
 Say *"Home"*.

You can also say the street name or address. (ex. say "Woodridge Avenue".)

If your home is not registered, you will hear "Home is not registered".

3. If the system recognized the command, the recognition result "Home" is displayed on the top of the screen with the screen message. (Displayed message and the touch-screen buttons on the screen depend on the situation.)

Touch or say *"Cancel"*, and the system will be canceled. Touch or say *"Help"*, and displays the "Help" screen.

4. Touch "Enter" or say "Enter destination", and the system starts searching for a route to your home. (If the destination is already registered, "Add to O" or "Replace O" is displayed on the screen.)

Touch or say *"Cancel"*, and the search will be canceled.

When you search the destination by "POI Name", this screen is displayed.

Touch "**Enter**" or say "*Enter destination*". When you touch "**Show List**", you can search another spot in its category.

INFORMATION

In the following conditions, the system may not recognize the command properly.

- The command is not correct or clear.
- There are some noises such as wind noise, etc.
